On earth, there are more than 3 bill... Wait a minute, I'll ask my mother. Yes, there are many, many men! And that's the reason why we, women, must know everything about them.

*So, dear women,
what do we know
about men in general?*

Well, first of all, they can be stylish,

...exalted and elegant,

*...strong and brave.
What else? Wait, I'll
ask my friend now.*

*Um... She says that men actually...
um... can be different.
And, sometimes, drunkards...*

*In general, it is widely thought
that men are bigger than we are,*

*...that we have different
interests and hobbies,*

*...(as an example, fishing
is usually mentioned).*

*But, these statements are
complete nonsense. We,
women, are no worse than
men in everything!*

And often, we even surpass them,

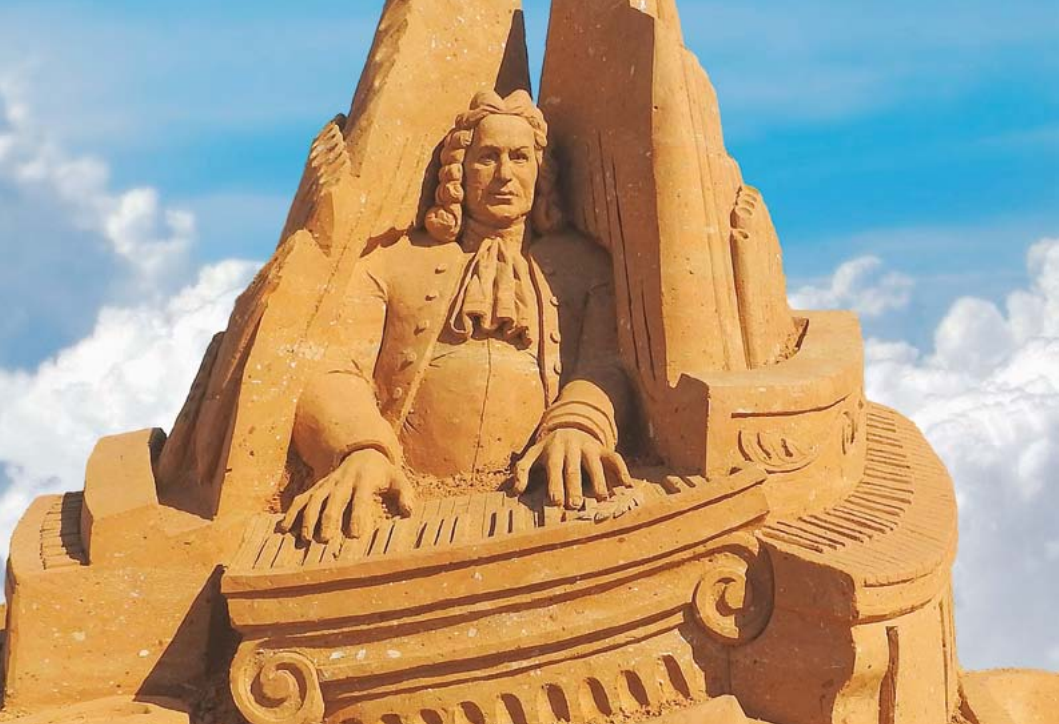

...for example, in elegance...

Now let's talk about
why we need men.
Well, first of all,
always to court
us, of course.

*To dedicate
poems,*

...and different songs to us,

...to give flowers,

...well, and some other presents,

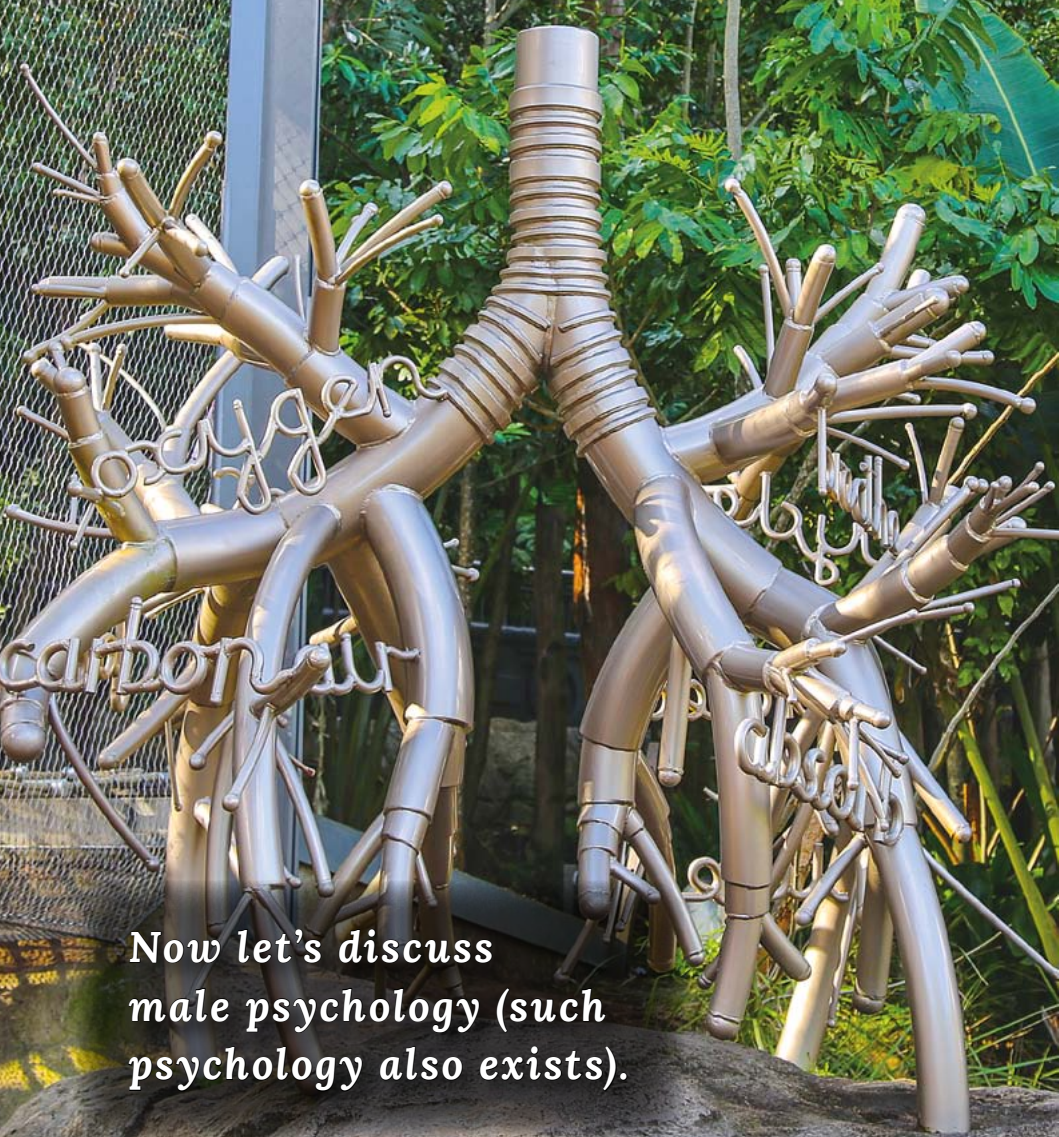

...feed us in a nicely fashion,

*...take us on vacation. What else?
Wait, I'll ask another friend...*

Well,
she says that,
in general, it's
all correct. She
is only
complaining
that there are
many
deserters.
Those, who
are hiding
from their
duties...

*Now let's discuss
male psychology (such
psychology also exists).*

*Men's main problem
is bad memory. They quickly
forget that they got acquainted
with the ideal woman.*

*To command and organize
is also part of men's character.
You should regard
this philosophically and indulgently.*

It is quite important for men to strive for something. We can also shut our eyes to this (of course, only after we make sure there are no other women around).

Quite often, men pretend that they are listening to us. That's why it is important to always check on them and ask again.

*What else? Men are also quite touchy.
That's why we shouldn't say that we are
always right. Once a year, it is necessary to
admit that we were wrong (and then
always refer to this case).*

By the way, clever women verified a long time ago that if men are completely surrounded with attention, then they will do less of the foolish things.

*In order to enjoy a happy personal life,
it is sometimes useful for women to think
(it is better to play different
smart games with appropriate
rivals to exercise thinking),*

*...at the same time, we
shouldn't forget that peeping
and eavesdropping are our old
and reliable allies as well.*

That's what we think! And they say that we, women, are not strong in analysis. Idle talk! By the way, why did they hang such a big walnut here?
